Dear Sir/Madam,

I am writing to request information about the driving license test for an MCWOG at the RTO Ghaziabad. As a resident of Ghaziabad, I am preparing to take the test and I would like to know the specifics of the driving maneuvers and techniques that will be assessed during the test.

I am particularly anxious about the possibility of having to make an "8" using a scooty during the test. While I have been practicing riding the scooty on the road and following all the rules of the learning license, I still feel uncertain about whether I will be able to pass the test. This uncertainty is causing me significant anxiety and exam fear.

Therefore, I would appreciate it if you could provide me with a detailed list of the driving maneuvers and techniques that will be assessed during the MCWOG driving test, including any specific maneuvers such as balancing, starting and stopping, turning, or other activities that are unique to the MCWOG.

Additionally, if there are any other activities that will be included in the test, such as a written test or a vision test specific to MCWOG, please provide details on the format and content of these tests.

Furthermore, I would also like to request information on the scoring system and passing criteria for the MCWOG driving license test. This will help me understand the level of proficiency required to pass the test and obtain my MCWOG driving license.

Thank you for your time and consideration. I look forward to your response.

Sincerely,

Chirag Singhal
