

Dear Sir/Madam,

I am writing to request specific details regarding the driving license test for a Motor Cycle Without Gear (MCWG) at the RTO Ghaziabad. As a resident of Ghaziabad, I am currently preparing to take the driving license test for an MCWG and would like to ensure that I am fully aware of all the activities that will be involved in the test.

Could you please provide me with a detailed list of the driving maneuvers and techniques that will be assessed during the driving test for an MCWG? I would like to know the types of activities that will be included, such as balancing, starting and stopping, turning, and other similar driving maneuvers specific to MCWG.

Furthermore, I would appreciate it if you could also inform me about any additional activities that will be included in the test, such as a written test or a vision test, specific to MCWG. If so, please provide details on the format and content of these tests.

I would also like to request information on the scoring system and the passing criteria for the MCWG driving license test. This will help me understand the level of proficiency required to pass the test and obtain my MCWG driving license.

I understand that the driving license test is a critical step in obtaining a driving license for an MCWG, and I appreciate your assistance in providing me with the necessary details to prepare for the test.

Thank you for your time and consideration.

Sincerely, Chirag Singhal
